**warsaw@schneider-group.com**

For years, Poland has been a country of remarkable investment potential and of particular interest to both private and corporate foreign investors. Poland ranks as one of the most attractive investment locations for a number of reasons: dynamic development, being a “green island” in times of crisis, a convenient central location in Europe, flexibility of market players, a large domestic market with a high share of domestic demand, inexpensive labour, and qualified management staff.

Our goal is to provide the highest possible quality service at any time. We are looking forward to providing you with our tailor-made solutions to make your business successful.

market entry | accounting | ERP | import | legal | tax
